Pomona College is prepared to respond to emergencies 24 hours per day, 7 days per week. If a major emergency such as an earthquake, hazardous materials accident or shooting occurs, the Executive Staff and the Emergency Response Team will direct the College’s emergency response. Specially trained response and support teams will be activated. At all times, the College’s highest priority is the safety and well-being of students, faculty and staff.

Your responsibility is to be familiar with the information in this brochure, to be sure that your contact information (phone numbers and email) is up-to-date in the Connect 5 database, and to know the escape routes for locations you visit frequently. Escape routes are posted in building hallways. You may also want to purchase or assemble a personal disaster preparedness kit.

HELPFUL NUMBERS AND CONTACTS

EMERGENCY HOTLINE
1-87-PomColl-8 (1-877-662-6558)

CAMPUS SAFETY
From a campus phone, dial x72000
From a cell phone, dial 909-607-2000
Give your name, location, and phone number.

CAMPUS SAFETY ESCORT SERVICE
Escort service is available from any location on the Claremont Colleges campuses, through Campus Safety, on request, whenever you are concerned about your safety: 909-607-2000

CUC Student Health Services: 909-621-8222
Monsour Counseling & Psychological Services: 909-621-8202
Pomona College Advocates for Survivors of Sexual Assault: 909-607-1778
Pomona College On-Call Deans: Reachable via Campus Safety: 909-607-2000
Employee Assistance Program: 800-234-5465

Facilities and Campus Services: 909-621-8300
CUC Environmental Health & Safety: 909-607-1668
Connect–ED

Connect 5 is an emergency notification service that enables Pomona College to notify you quickly about a major emergency on campus and to provide you with information and instructions.

Messages are sent via phone, text and email. Students, faculty and staff with a listed campus phone number are in the Connect 5 database. To add a cell phone number or direct office line to the Connect 5 system, log on to the campus portal at my.pomona.edu and click on the Connect 5 link (far left). All contact information included in Connect-ED will be used ONLY for campus emergency notification and will NOT be made available to any other service. Emergency drills have shown that text messages arrive fastest.

Campus Public Alert System

Pomona College has 49 emergency alert broadcast stations located throughout the campus that can be used as a public address system. In an emergency, they will be used to broadcast warning tones and short messages. The stations with emergency phones, which are topped by blue lights, can also connect a user directly to Campus Safety, when the red button is pushed.

Emergency Websites

In the event of an emergency, regular updates will be posted on Pomona’s campus-hosted Emergency Web, at www.pomona.edu/emergency. There is also an off-campus Emergency Web address (www.pomonaemergency.info), which will remain available even in the event that public access to the Pomona Web is interrupted.
EARTHQUAKES

If You Are Inside a Building:

1. Move away from windows, filing cabinets, shelves, chemicals and other heavy objects which may fall.
2. Immediately “Duck, cover, and hold”:
   - Duck under a table or sturdy desk and hold on to it until shaking stops.
   - If you are not near a table or sturdy desk, crouch against an interior wall or between seating rows in auditoriums, and cover your neck and head.
   - If you stand in a doorway, brace yourself against the frame, with your back to the door.
   - Wheelchair users: You should move to the safest location, apply the brake, and cover their head with your arms.
3. Stay under cover until shaking has stopped.
4. Once shaking has stopped, leave the building. If possible, put on a pair of comfortable shoes (not flip flops) as there could be broken glass or other debris. Take your keys, wallet, cell phone, emergency “Go Bag,” flashlight and any other small, necessary items such as medicine or glasses. **DO NOT USE ELEVATORS!**
5. Report to the building evacuation site and wait for instructions. Report any hazards to the Building Coordinator. Your evacuation site is the best place to go for further information on what to do.
6. Do not re-enter the building until given permission by the College’s Emergency Response Team.

If You Are Outside:

1. Move away from buildings, trees, signs, electrical poles and wires.
2. Protect your head from falling debris.
3. If you are near a Pomona College emergency evacuation site, report to that Building Coordinator. This will be the best place to get further information on what to do.

BE PREPARED FOR AFTERSHOCKS.
FIRE

1. Calmly alert people in the area of the fire and activate the nearest fire alarm.
2. Do not try to retrieve items in another area of the building.
3. Evacuate the building using the stairs. Do not use elevators!
4. Close as many doors behind you as possible. As you proceed to the exit, touch doors with the back of your hand to see if they are hot before opening. Do not open hot doors.
6. Report to the building’s designated evacuation area and wait for further instructions.

If trapped in a building:
1. Close all windows and doors.
2. Wet and place cloth material around and under door to prevent smoke from entering.
3. Call Campus Safety at 909-607-2000 for help and tell them your location.

EVACUATION

To be prepared, you should know the nearest exits and the evacuation site for each building you visit frequently. See the last page of this flip chart for the Pomona College evacuation map.

1. When you hear a bullhorn or fire alarm, immediately stop what you are doing and exit the building.
2. While leaving, take note of any hazards and any remaining occupants.
3. If requested, assist anyone who appears to need direction or assistance.
4. Take with you ONLY essential personal items (wallet, keys, glasses, cell phone, “Go Bag,” etc.).
5. Shut all doors behind you but do not lock. Closed doors can slow the spread of fire, smoke and water.
6. Once outside, proceed directly to the building evacuation site.
7. Do not leave the evacuation site unless directed to do so by Pomona College emergency personnel.
In a Medical Emergency:

- Remain calm and do not move the victim unless his/her location poses a possible danger.
- Immediately ask someone nearby to call 911 and then call Campus Safety at 909-607-2000.
- Let Campus Safety and emergency responders know if the victim:
  - is unconscious;
  - has trouble breathing;
  - has chest pain or pressure;
  - is bleeding severely;
  - is having or had a seizure;
  - has possible broken bones;
  - has injuries to the head, neck or back;
  - or appears to have been poisoned or exposed to hazardous materials.
- Care for life threatening conditions and provide first aid only if you have the proper training.
- After the person has been helped, remain at the scene to help with the incident investigation.

Automated External Defibrillators (AEDs)

There are 21 Automated External Defibrillators (AEDs) available in locations across the Pomona College campus. People trained to use AEDs may use any AED machine on campus. To find out when training sessions will be held, contact Wayne Phan in the Pomona College Facilities and Campus Services Office at 909-607-1668 or email wayne.phan@pomona.edu. AED machines are available in the following campus locations:

- Alexander Hall (outside Room 117)
- Bridges Auditorium (lobby)
- Bridges Hall of Music (Little Bridges)
- Edmunds Ballroom (Smith Campus Center)
- Frank Dining Hall
- Frary Dining Hall
- Hahn Building (Room 101)
- Haldeman Pool
- Kenyon House (mobile unit)
- Mason Hall (Room 236—mobile unit)
- Oldenborg Dining Hall
- Pendleton Pool
- Pomona College Museum of Art
- Rains Center (one stationary plus two mobile units)
- Seaver Science North (south entrance)
- Seaver House/Alumni Relations
- Seaver Theatre
- Smith Campus Center (west side of patio near ATM)
- Strehle Track/Tennis Complex
- Sumner Hall (first floor)
CRIMES ON CAMPUS

Reporting a Crime or Threat

Report all crimes or suspicious activity on or near campus to Campus Safety at 909-607-2000.

It is the responsibility of all faculty, staff and students to help keep the Pomona campus safe by reporting crime and suspicious activities to Campus Safety.

If you are the victim of a crime or threat, or witness a crime, such as assault, robbery, theft, unwanted sexual behavior, etc., notify Campus Safety at 909-607-2000 immediately.

You will need to:
• describe the nature of the incident,
• provide the time and campus location,
• describe the person or people involved, as well as the vehicle if one was involved, and
• direct Campus Safety to any evidence.

If you would like support or assistance from the Pomona College On-Call Dean, Campus Safety can contact them for you. You can find other useful numbers in the Helpful Numbers section of this booklet.

Campus Safety Escort Service

If you become concerned about your safety while walking on campus, you can use one of the emergency phones (topped with a blue light) to reach Campus Safety directly.

In addition, Campus Safety offers an Escort Service 24 hours per day. To request the service, call Campus Safety at 909-607-2000.

Active Shooter

These types of incidents are unpredictable, and you may need to alter these suggestions depending on the situation.

If a shooter is in a building:
• Exit immediately if it is safe to do so.
• Tell anyone you encounter to exit immediately.
• Seek shelter in a safe location.
• Call 911, then immediately call Campus Safety (909-607-2000). Provide the following information:
  • Your name
  • Location of incident
  • Number of shooters
  • Identification or description of shooter(s)
  • Number of people with you
  • Your location
• Wait for instructions from Campus Safety, police or College.

If leaving the building is not possible, or if a lockdown is announced, the following actions are recommended:
• Go to the nearest room or office and shelter in place
• If safe, allow others to seek refuge with you.
• Close and lock the door. If there is no lock, barricade the door with anything heavy.
• Cover the door window and pull shades. Turn off the lights.
• Stay quiet. Silence cell phones and other electronic devices.
• Call Campus Safety (909-607-2000) and 911.
• Wait for police to help you out of the building. The College and/or Campus Safety will provide updated information as available through Connect 5 and the College web.

Police Response

The first goal for police will be to get to the shooter. Please remain patient and calm during this time.
Bomb threats on the campus are rare. Most bomb threats are hoaxes. However, any bomb threat must be taken seriously and treated as a real emergency and credible threat. The potential for serious injury and damage makes even a threat a very serious incident.

**Threat Received by Phone:**
Statistically, the majority of bomb threats are made by phone. The person receiving a bomb threat over the phone should pay particular attention to the information the caller gives and pay attention to background sounds.

- Stay calm.
- If your phone has caller ID, record the number.
- If possible, get the attention of someone else and have them call 911 or Campus Safety.

The checklist provided below can be used if a bomb threat is received over the phone.

**Threat Received by Email:**
- Immediately call 911, and then call Campus Safety at 909-607-2000.
- Forward the email threat to Campus Safety (dispatch@cuc.claremont.edu), and do not erase.

**Suspicious Package**
If you are within 300 feet of a suspicious package, do not use a cell phone, cordless phone or walkie-talkie because it may trigger an explosion.

**DO NOT TOUCH THE PACKAGE, TAMPER WITH IT OR MOVE IT!**
**EVACUATE THE AREA AND CALL 911 AND THEN CAMPUS SAFETY AT 909-607-2000.**

**Bomb Threat Checklist**
If a bomb threat is received by phone, the person receiving the call should try to get the following information from the caller:

- **Time of Call:** ________________________________
- **Location of the bomb (Building, room, etc.):** __________________________________________
- **Time the bomb is set to go off:** ________________________________
- **What does it look like:** __________________________________________
- **What kind of bomb:** __________________________________________
- **What will make it explode:** __________________________________________
- **Did you place the bomb?**  YES  NO
- **Why:** __________________________________________
- **Exact words of threat:** __________________________________________
- **Male or Female Caller:** __________________________________________
- **Voice characteristics (Do they sound familiar, age, tone, irrational or well-spoken):** __________________________________________
- **Background noises heard:** __________________________________________
Utility outage emergencies are those service interruptions posing an imminent, significant hazard to life, health or property.

**Reporting a Utility Outage**

*During Office Hours (8:30 a.m. – 5 p.m., Monday – Friday)*, call the Pomona College Facilities Work Management Center at **909-621-8300**. The Center will contact the appropriate engineers and mechanics to restore service.

*After Office Hours*, call Campus Safety at **909-607-2000**, and the dispatcher will contact the appropriate engineers and mechanics. If evacuation is necessary or if other major consequential actions are required, Campus Safety will contact the responsible officials.

**Scheduled Outages**

Scheduled outages are not considered emergencies, and advance notification will be provided by email or in writing prior to the date of the scheduled outage. The Pomona College Office of Facilities and Campus Services is responsible for notifying the Pomona College community about planned outages.

**Utilities Failure & Evacuations**

Evacuation from facilities is a possibility during any utility emergency. Normal evacuation procedures will remain in effect for utility emergencies.

**Other System Failures**

**Elevator Failure:** In the event of an elevator failure, use the emergency phone and alarm found inside the elevator. Campus Safety will respond. Do not attempt to open the elevator doors.

**Gas Leaks:** Gas leaks typically smell like sulfur or rotten eggs, due to an additive in the natural gas supply. If you smell a gas leak, cease all operations and notify people in the area. IMMEDIATELY EXIT THE BUILDING. Evacuate at least 300 feet from the suspected leak, and call Campus Safety at **909-607-2000**. Report to the nearest safe evacuation site.

**Ventilation Problems:** If smoke or chemical odors come from a ventilation system, immediately call Campus Safety at **909-607-2000**.
The range and quantities of hazardous substances used on the Pomona College campus require chemical safety training in order to minimize accidental chemical releases and ensure that when one does occur, it is handled in a safe manner. For this reason, Chemical Safety Training is required for all students who work with chemicals.

Only knowledgeable and experienced personnel should handle cleanup of a chemical spill. In the case of any spill or leak, there is the possibility of an adverse exposure to occupants in the affected area(s), and the area should be evacuated immediately.

If there is the slightest doubt on how to proceed, do not hesitate to call for assistance:
- Emergency: Campus Safety 909-607-2000
- Information: Pomona Environmental Health and Safety 909-607-1668

RESOURCES
Material Safety Data Sheets (MSDSs) provide spill and leak procedures for individual chemicals. This information should be reviewed during training conducted under either the Hazard Communication Standard (29 CFR 1910.1200) or the Laboratory Standard (29 CFR 1910.1450). Copies of MSDSs should be received with shipments of new materials and should be maintained in each applicable work location.

Spill kits should be available to clean up minor spills. The MSDS will provide instructions and proper personal protective equipment requirements for cleaning up minor spills. Spill kits are commercially available from most chemical supply companies. If assistance is needed in obtaining an appropriate spill kit, contact the Pomona College Environmental Health and Safety Office at 909-607-1668.

MAJOR AND MINOR SPILLS
A minor chemical spill is one where the individual(s) responsible for the spill feel(s) that they are capable of handling the spill safely without the use of respiratory protection or the assistance of specially trained emergency response personnel (Hazardous Waste Operations and Emergency Response: 29 CFR 1910.120).

The Pomona College Environmental Health and Safety Office (909-607-1668) is equipped to handle most spills that occur at the College.

All other chemical spills are considered major spills. In these cases, call Campus Safety immediately (909-607-2000), and they will contact the necessary response personnel to do the clean up. If possible, provide the following information:
- Your name and phone number;
- Identity of material and amount spilled; and
- Time and location of spill: building, room and where in the room.
HAZARDOUS MATERIALS SPILLS (2)

PROCEDURES

Minor Chemical Spills
In the event of a minor spill of hazardous material:
- Alert people in the immediate area of spill.
- Wear protective equipment as needed, including safety goggles or face shield, gloves and lab coat. Consult the MSDS for proper personal protective equipment requirements.
- Avoid breathing vapors from the spill. Increase area ventilation by turning on hoods and opening windows.
- Confine spill to small area with absorbent materials.
- Use an appropriate spill kit to neutralize and absorb inorganic acids and bases. For other chemicals, use appropriate kit or absorb spill with vermiculite, dry sand, and diatomaceous earth or paper towels.
- Collect residue, place in container with lid, seal and label, and contact Pomona’s Environmental Health and Safety Office at 909-607-1668 for disposal information. After business hours, call Campus Safety (909-607-2000).
- Clean spill area with water.

Major Chemical Spills
In the event of a major spill of hazardous material:
- Evacuate and immediately call Campus Safety (909-607-2000). If possible, the following information should be made available to emergency response personnel:
  - Your name and phone number
  - Identity of material
  - Location of spill: building, room, location in room
  - Time of spill
  - Amount of spilled material
- Attend to injured or contaminated persons and remove them from exposure. In case of personal contamination, remove affected clothing and flush contaminated skin with water for at least 15 minutes.
- Seek medical attention immediately.
- Bring the MSDS along with you if available.
- Alert people in the surrounding area to evacuate.
- If there is no health or safety risk, turn off ignition and heat sources, maintain fume hood ventilation and open windows to increase ventilation.
- Close doors (do not lock them) to affected area once the area is evacuated.
- Have someone knowledgeable of the incident and the laboratory available to assist emergency personnel when they arrive.
- Anyone who could have been exposed to hazardous chemicals should go to Pomona Valley Hospital Medical Center Urgent Care during business hours (open 8 a.m. – 8 p.m. on weekdays) or at all other times to Montclair Medical Center Emergency Room.

Pomona Valley Hospital Medical Center Urgent Care
1601 Monte Vista Avenue, Ste. 190
Claremont, CA 91711
909-865-9977
8 a.m. – 8 p.m. Monday thru Friday
9 a.m. – 5 p.m. weekends and holidays

Montclair Hospital Medical Center Emergency Room
5000 San Bernardino St.
Montclair, CA 91763
909-625-5411

Mercury Spills
This could include broken thermometers and CFL light bulbs.
- Report mercury spills that are not contained or that could result in environmental contamination to Campus Safety (909-607-2000).
- Gloves, eye protection, and a lab coat should be worn in the area of a mercury spill.
- If contamination is on the floor, prevent the mercury from spreading by isolating the area if possible ( barrier tape, closed doors).
- Contained material should be placed in a sealed, labeled container — polyethylene containers are best. Call Pomona’s Environmental Health and Safety Office at 909-607-1668 for disposal information.
SHELTER IN PLACE OR EVACUATE?

The College is committed to getting accurate emergency alerts and information to members of the community as soon as possible. However, in the first minutes of an emergency, you may need to make an immediate decision to “shelter in place” or move to a safer location. You should understand and plan for both possibilities. Use common sense and available information, including what you are learning here, to determine if there is immediate danger.

Whether you are at home, work or elsewhere, there may be situations when it’s best to stay where you are and avoid any rapidly changing or unknown situation outside. There are other circumstances when staying put and creating a barrier between yourself and potential danger is a matter of survival. Use available information to assess the situation.

SHELTER IN PLACE OR LOCKDOWN
Depending on the circumstances, when the College issues a campus alert calling for a lockdown or to shelter in place, you should:

- Move into or stay inside the nearest building.
- Go into an interior room or office with few windows, if possible.
- Close all windows, lock doors and, if possible, turn off ventilation systems (including air conditioning and heat, bathroom and kitchen exhaust fans).
- If the door has a window, cover it.
- Stay away from windows and doors.
- If you can, take your emergency supply kit with you, unless you have reason to believe it has been contaminated.
- Remain in place until notified by proper College administration officials (Building Coordinators or the College Emergency Response Team).

EVACUATION
There may be situations when you need to evacuate quickly to ensure your safety. Please do so and alert others in your area if possible. If it is safe to do so, go to your building’s designated evacuation site. If the evacuation site does not appear to be safe, get to a safe place as soon as possible.

In either case, if there has been no emergency alert from the College or Campus Safety, please contact Campus Safety at 909-607-2000 as soon as possible. They will send an alert to the community and provide information to the Pomona College Emergency Response Team.

In situations when you are ordered to leave an area, be sure to take necessary items such as keys, glasses and wallets. You may not be able to return to your dorm room, office or classroom for some time. It is best to be prepared, just in case.
